## PIECING IT TOGETHER

We (Stacie & Zara) have known each other for 40ish years, which is strange as we are only 26...

Piece Out began early 2022 as a Takeaway cafe and we made it our mission to elevate the sarnie. (You cannae beat a guid piece).

Starting a business as energy and food prices soared was a challenge, but we met it head on and smashed it. At the same time, the catering side of Piece Out grew organically and took over our cafe as our main business.

We took a leap of faith and decided to focus solely on catering and events and here we are today!

## THE CART

Dazzle your guests and elevate your event with our exquisite charcuterie cart!

From bridal parties and weddings to intimate gatherings like baby showers, gender reveals, special birthday's and surprise parties, our charcuterie cart adds a touch of sophistication and flavour to any event.
